

Johnson Planning Commission Minutes
Wednesday, August 13, 2014

Present: Kim Dunkley, Cynthia Hennard, David Bergh, David Grozinsky, David Butler, Ben Waterman, Bob Selby

7:00 The minutes were read and approved.

7:05 Extensive conversations were held concerning the structure and membership of the Steering Committee for the meeting of that committee on September third at 6:30 PM at Johnson Town Hall to be conducted by professional consultant Paul Dreher of Paul Dreher Associates. No formal motions were made by the planning commission, but it was agreed that the volunteers for the Steering Committee would represent an adequate number and sufficiently representative group for the development of a model Form Based Zoning code for Johnson. The expectation is that the Steering Committee will meet biweekly for a period of about three months under the direction of Paul Dreher. Members of the Johnson Planning Commission will take turns sitting in on the Steering Committee meetings to monitor and report progress. The result of the process should be the preparation of a model Form Based Zoning plan for consideration by the Johnson town voters.

8:30 Meeting was adjourned

Respectfully submitted,

Bob Selby
Chair, Johnson Planning Commission
