Notice of Public Meeting Pearl Street Sidewalk Reconstruction Project

Earlier this year, the Village was awarded a grant from the Vermont Agency of Transportation to fund 50% of the reconstruction of the sidewalks on Pearl Street from just north of the Pearl Street bridge to just south of Crabtree Lane. The project also proposes to restore the green strip (the grassy area between the road and the sidewalk) on the east side of the road. The project is intended to go to construction in 2019.

The site plan that was used as the basis for the grant application and cost estimate is on the reverse side of this page. Specific details of the proposal include:

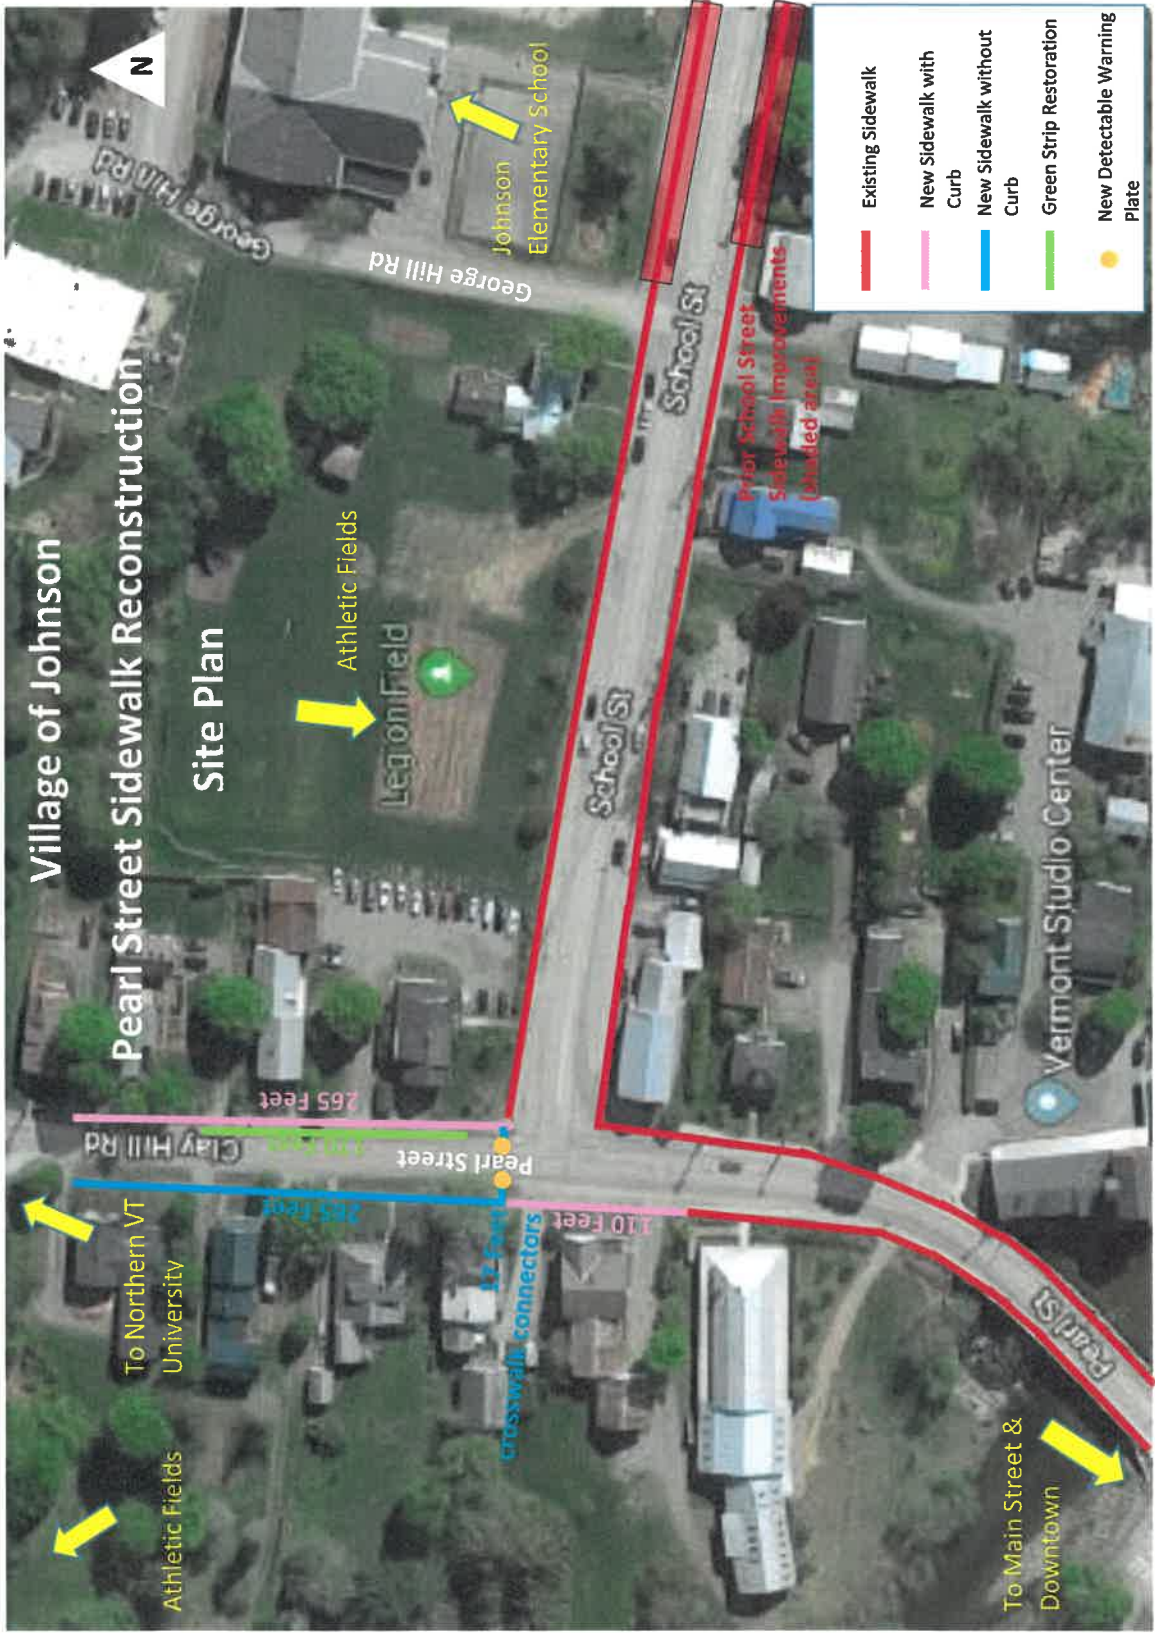

- 1) Reconstructing all the sidewalks to provide a smooth level surface.
- 2) Widening all the sidewalks to the required Americans with Disabilities Act (ADA) minimum width of five feet.
- 3) Adding ADA detectable warning plates at the crosswalk entrances.
- 4) Adding concrete curbing on the west side of Pearl Street from where the curbing currently ends to the School Street intersection.
- 5) Adding concrete curbing to the east side of the road north of School Street to just south of Crabtree Lane.

The Village is holding a public meeting to solicit feedback from residents on this proposal and to learn whether adjustments should be considered before the Village develops final plans and puts the project out to bid.

What: Pearl Street Sidewalk Reconstruction Public Meeting
When: Monday, December 10th at 6:00 PM
Where: Johnson Municipal Building – 2nd Floor

Please join us to share your thoughts and ideas!

If you have any questions in advance of the meeting or if you are not able to attend, please feel free to contact Meredith Birkett, Village Manager, at 635-2611 or vojmanager@townofjohnson.com
