

NOT SENT

Aug 16, 2019 Minutes for Tuesday Night Live Committee Mtg

Present: Mara Segal, Jen Burton, Howard Romero, Tim Mikovitz by phone

Called to order 7:10.

There were no minutes available from the previous meeting.

LRSWMD waste setup: Howard said he now believes that next year we could have only one "Greening Center" as opposed to the current 4. It will concentrate our efforts and can be made to be highly visual (under a shelter canopy). Others thought the idea has merit. Howard will continue to think about this and will present some thoughts later in the winter.

Requests from non-profits: First of all ascertaining as to where the "pot" collections that come from TNL are used. That is it must go to the central service of the group. Also, we thought we could accommodate 2 NP's at a time as we have the room. We will let "First Horse" and "Suicide Prevention" NP's set up and solicit donations from their booth. This subject is going to be part of our policy discussion this winter. This was approved by consensus.

SK8 / Bike Park signage to advertise the new bike repair station will be allowed at TNL as a freestanding sign or attached to the front of the bread oven table.

Time said the roadcase for the soundboard will run about \$280, but the purchase will be postponed until after the season.

Howard will be out of town for the next concert and will drop off the trash and recycling on Sunday at the bandstand.

Adjourned at 7:31
