1. Potential Storage/ Prep
 - a. Luke has offered to design/build a storage bin for oven supplies that can be easily locked. He and Mark and others will scope out potential spots for it near the bandstand. Sophie will also run the idea by Howard and TNL crew to make sure its located in ideal spot.
 - b. Jen B. has been in contact with JES principal, Dave Manning. He has graciously approved the JCOC storing cheese/toppings in their walk-in for Monday Night Bakes, as long as we follow their summer break schedule. There is a form we need to fill out, and Jen B. is on it.
2. Skate & Bake

 - b. Brian R. will start the fire sat night to get the oven warm

3. Social Media Posts
 - a. Need to be more frequent & share that anyone can use for an event
4. Oven Manual
 - a. Liam and Ray will work initially on getting the overall firing information down on paper with corresponding pictures. Ray will upload as a Google Doc and share with the rest of the committee so we can all have input. The plan is to have a copy at the oven (in our soon-to-be bin) and a copy at the Town Municipal building to be handed over to whomever signs up to use the oven.
5. Town Meeting Day
 - a. We inquired with Mark if he needed extra help with slingin pizzas on Town Meeting Day. He said that it would be great to have Liam and Jared on board to help, and potentially have someone write on each box what type of pizza is in each one, so potluckers know.
6. Other Business

- a. Jen B. mentioned that she'd like to see some sort of workshop/series at the oven this summer. Potentially one with Blair, or Liam, or other oven savvy bakers who would be willing to participate. "Summer Series" sort of thing.
