Prepare for the Cold Weather & Snow

Please make sure to protect your water pipes **and your water meter** from freezing! Meters are expensive to replace and easily damaged by freezing. Damage from freezing will be billed to the customer. If you are going to be leaving for the winter, be sure to contact the office and arrange for a water shut off by the Village Water Department at least 48 hours in advance.

Please remember that water meters can only be removed by Village personnel and that homeowners are not permitted to remove meters.

Please remember to keep a clear path to your meters so we are able to access them.

Thank you!
