

Village of Johnson Electric Department NOTICE OF PROPOSED RATE CHANGES

On June 15, 2023, the Village of Johnson Electric Department filed revised tariffs with the Vermont Public Utility Commission (PUC) requesting an increase in its retail rates of 9.33%. The overall increase in costs for the Light Department is due largely to the increased costs of supplying and distributing energy to the consumer. The proposed retail rate schedule is to be effective on a service rendered basis beginning August 1, 2023.

To determine the impact on your individual bill, use the proposed rates column and your average monthly consumption. For example, a residential customer using 600 kWh a month would calculate his or her bill as follows:

	<u>Present Rates</u>		<u>August 1, 2023 Proposed Rates</u>
Customer Charge	\$ 12.14		\$13.27
NYPA 100 x \$ 0.10520	\$ 10.52	100 x \$ 0.11501	\$11.50
Tail block kWh 500 x \$ 0.16200	\$81.00	500 x \$ 0.17711	\$88.56
	-----		-----
	\$103.66		\$113.33

The Public Utility Commission has no authority to suspend this rate request. If the PUC decides not to open a formal investigation, the rates will take effect August 1, 2023, on a permanent basis. However, the PUC may order a formal investigation and hearing on the proposed rate changes. Until completion of that formal review by the PUC, the increase would be listed as a surcharge on your bill. Any person wishing to comment on the proposed rate change should file their views in writing via the PUC's electronic filing system which can be found at <https://epuc.vermont.gov/> and use **Case No. 23-2020-TF**. Comments may also be submitted by regular mail at Vermont Public Utility Commission, 112 State Street, Montpelier, Vermont 05620-2701.

Any interested person may examine the tariff change filing at the Village of Johnson Electric Department offices during normal business hours.
